

Interview Questions

Interview Script:

Assalam-o-Alikum! my name is **[Ibrar Ul Hassan Shami]** and my partner here is **[Aqsa Shehzadi]** and We am conducting this interview as part of an academic project on improving GPA and CGPA calculation systems. The purpose of this interview is to understand your experiences, challenges, and needs when calculating and interpreting GPA and CGPA.

The interview will take approximately **10 minutes**. During this time, I will ask you questions about how you currently calculate your GPA, what tools you use, and what difficulties you may face. There are no right or wrong answers, I am interested in learning from your experiences.

Your participation is completely **voluntary**, and you may choose to stop the interview at any time without any consequences. All responses will be kept **confidential**, and your name or any personally identifiable information will not be included in the final report

Your participation is completely **voluntary**, and you may choose to stop the interview at any time without any consequences. All responses will be kept **confidential**, and your name or any personally identifiable information will not be included in the final report

Core Interview Questions and Follow-Ups:

1. Current GPA Calculation Practice:

Core Question:

Can you describe how you usually calculate your GPA or CGPA?

Follow Ups:

- What tools or systems do you use?
- Why do you prefer this method?
- When did you first start using it?

2. Tools and Workflow:

Core Question:

Can you walk me through the last time you calculated your GPA or CGPA?

Follow Ups:

- What information did you need?
- Which step felt the most confusing?
- Did you need help from someone else?

3. Pain Points:

Core Question:

What part of the GPA or CGPA calculation process do you find most difficult?

Follow Ups:

- Is it the grades, credit hours, or formula?
- Why do you think this part is difficult?
- How do you usually deal with this difficulty?

4. Errors and Trust:

Core Question:

Have you ever received a GPA result that you felt was incorrect or unclear?

Follow Ups:

- What made you feel it was incorrect?
- Did you try to verify it?
- Did this affect your trust in the system?

5. Understanding Credit Hours:

Core Question:

How do you understand the role of credit hours in GPA and CGPA calculation?

Follow Ups:

- When did you learn about this?
- Do calculators explain this clearly?
- What would help you understand it better?

6. Interpretation of Results:

Core Question:

Once you get your GPA result, how confident do you feel about understanding what it means?

Follow Ups:

- Do you compare it with previous results?
- Do you feel stressed or satisfied?
- Why?

7. International Context:

Core Question:

Have you ever considered applying to a foreign university or studying abroad?

Follow Ups:

- Did GPA requirements confuse you?
- Did you try converting your GPA?
- What challenges did you face?

8. Cross-Country GPA Understanding:

Core Question:

How well do you understand how your GPA would be evaluated in another country?

Follow Ups:

- Where did you get this information?
- What would make this clearer?
- Would a comparison feature help you?

9. Desired Features:

Core Question:

What features would make a GPA calculator easier or more helpful for you?

Follow Ups:

- Step-by-step explanation?
- Visual breakdown?
- International comparison?

10. Overall Experience:

Core Question:

If you could change one thing about current GPA calculation systems, what would it be?

Follow Ups:

- Why this change?
- How would it help you?

Conclusion Script:

Thank you very much for your time and for sharing your experiences. These insights will help in designing a GPA and CGPA calculation system that better supports student needs.

If you think of anything else later that you would like to add, please feel free to contact me. I may also reach out to you for a brief follow-up if clarification is needed. If you are interested, I can share a summary of the project findings with you.

Do you have any questions before we finish?

Thank you again for your participation.
